Capitol Version of the Congressional Zip-to-District Table

The Capitol Congressional Zip-to-District Table is essential for organizations that must have accuracy for matching zip codes to Congressional Districts. The table is based on zip codes to which either longitudes and latitudes or Census Block numbers have been assigned. The table is available in text (flat file), Access 2000, and dBase IV formats and can be purchased for all 50 states or by individual states. The fields are straightforward, with the plus4s set up in a range file, such as 0001-5598. The database is updated quarterly.

In addition, the Capitol Congressional Zip-to-District Table comes with tables of all House and Senate members, their party affiliation, district offices, Capitol Hill suite, email* address, telephone, fax numbers** all in text format. This portion of the table is updated weekly when Congress is in session.

Advantages:

- Available for use on multiple work stations
- Data is downloadable in a choice of three formats
- One table in a manageable size

File Formats and Sizes:

- Text (flat file): 10 megs
- Access: 23+ megs
- dBase IV: 8 megs

Download a sample: Text Access dBase IV

Price:

\$4,000.00 with quarterly updates
\$1,500.00 for one-time purchase of all 50 states

All orders must be paid at time of purchase by credit card: American Express, Discover, MasterCard, or Visa.

To purchase or to receive a price quote for individual states, please send an email to Mike Waters at mwaters@congressmerge.com or call him at 703-799-1189.
